

Mini Cones yarn dryer MCD

MCD 小筒子干纱机

Model : MCD

Lab.dyed cones

Hot-Air Generator HG

Open door picture

Application

- Twin individual chamber for sample yarn cones drying.
- For Auto-dry purpose.

Highlights

- Color display controller to monitor all technical condition :
 - Temp. time control and setting.
 - Energy saving by auto valve for recycle exhaust hot air .
- Saftey pressure device
- Rotating sample holder to obtain even heating.
- Provides Inside-out and outside-in hot air to improve drying result.
- Holding 2 cones sample holder per chamber approx. capacity to max. 1kg weight per yarn cone .
- Up to 150C setting temp.
- External hot-air generator HG.

Specification / model :	MCD
Option heating device	Hot-Air generator HG power 3P-7.5kw
Machine Voltage	1-Phase AC220V, 50/60Hz
Machine Current	5A
Machine Power	1KW
Machine dimension mm	W1210 × D860 × H860 mm
Machine net weight kg	130kg
