

X-rite SpectraLight QC

Model:SPL-QC

Features

- The SpectraLight QC offers 7 light sources. This includes the best quality daylight available, filtered tungsten halogen (D50 or D65), Cool White Fluorescent Incandescent "A" & 2300K/Horizon, UVA, two more fluorescent types (choice of U30, U35, TL83, and TL84), and choice of 2 LED light sources (L940 or L950). The SpectraLight QC also offers instant power-up and an indicator light to ensure operators of optimum stability.
- Ensure consistent visual assessment across a supply chain.

Introduction

Munsell 100 Hue Test

The Farnsworth Munsell 100 Hue Test is an easy-to-administer test and a highly effective method for evaluating an individual's ability to discern color.

Benefits

- Use this test to determine type and degree of color deficiency.
- Fully analyze color vision for in-house and field staff involved with color-critical operations.
- Use as an independent control for measuring the validity of other color vision tests.

Model:FM100
